

# ULTRA CLEAN

## CLEANING TISSUES MOIST TOWELETTES

### DEFINITION

Tissues specially soaked with a special solution engineered for the removal of all stains  
Contains a new-generation advanced-technological solution made from plant extracts.

### ADVANTAGES

Excellent grease remover. Solution in compliance with new community regulations (free of chloride or fluoride solvents) Enables dissolving of all types of fatty substances. Cleans hands without water directly at site of use. Hypo-allergenic.

### USES

Its tremendous solvent power on numerous products, such as grease, oil, tar, asphalt, soot . . . makes of this product a very efficient weapon against dirt.  
Ideal for heating engineers due to its outstanding efficiency on combustion residue.  
End-of-project or end-of-process wipe-down in order to leave the work neat and clean.

### DESCRIPTION

Appearance: ..... pink tissues  
Scent: ..... mandarin orange  
Flash point (VC) (ASTM D 56): ..... 69°C  
Dimensions: ..... 205 \* 300 mm  
Dielectric strength: ..... > 40 KV  
KAURI BUTANOL Index: ..... > 80

### INSTRUCTIONS

Ready-to-use tissues. Close the container well after each use so the tissues do not dry out.

### PACKAGING

Containers of 150 WIPES      Ref. 5575S10
