

COLZ'EMUL

**TAR REMOVER - DEBITUMINANT
EMULSIFIABLE - 100% PLANT EXTRACTS**

DEFINITION

Emulsifiable vegetable solvent from high technology

ADVANTAGES

All components are inherently biodegradable in term. High flash point guarantees the safety of users. Penetrates deeply and perfectly dissolves fat deposits and sludge. Does not cause oxidation of ferrous metals after drying. Easily rinsed with water. Very low odor. Allowed for incidental food contact.

APPLICATION FIELDS

CLEANING

Specially adapted for the rapid and complete degreasing of all mechanical parts and metal surfaces:

- Powerful tar remover, cleaning soot and all its derivatives.
- Cleaning of the combustion residues (boilers, engines, ...) and hydrocarbons
- Cleaning brushes impregnated with solvent-based paints
- Cleaning and degreasing mechanical parts automotive, public works and agriculture
- Degreasing floors very dirty and very greasy

ANTI-STICK

It is recommended and used as non-stick:

- For materials application and transport tar and bitumen
- Construction Tools
- For stripping formwork boards

TECHNICAL CHARACTERISTICS

Aspect	transparent liquid
Aspect diluted in water.....	milky
Color	light yellow
pH.....	neutral
Odor	light
Density at 20°C	0.88
Flash point	> 150°C
IKB	> 80
COV	0%
